### TIKE CAR SEAT STICKERS PROVIDE VITAL DATA TO FIRST RESPONDERS

Consider what happens when a parent or caregiver is incapacitated in a crash, but the child is left alone and in need of help.

*How do first responders get the vital information they need to treat injured youngsters or reunite unhurt children with family members?*

**TIKE Stickers** (Toddler Information Kept for Emergencies) provide identifying information to emergency personnel should an accident disable the adults riding in the vehicle.

INSURANCE TIPS

WATER, WATER, EVERYWHERE!

*(Pictured: Dan Biedenharn's kids)*

**With all the recent flooding that has occurred in Texas and Florida, this is a good reminder to evaluate what coverage you DO have and DO NOT have for water damage.**

*Here are the most common examples of water damage to your home:*

#### **Typically Covered by Homeowners**

- Water damage from falling rain from perils like roof failure, wind, or tree damage
- A pipe or water heater bursts causing damage

#### **Limited or No Coverage**

- Sump pump fails damaging your finished basement
- Water backs up through sewers or drains causing damage

#### **NOT COVERED – FLOOD**

- Flood is surface water on land that is normally dry. Surface water that comes through your front door or basement windows is flood.

Only 17% of Texas flood victims have flood insurance. Over 80% of the victims were not in a high-risk flood zone, so they did not purchase the protection. Everyone should consider flood insurance, because flooding is the most common natural disaster in the United States, and it can happen anywhere. You can learn more about flood insurance by going to [floodsmart.gov](http://floodsmart.gov).

We can provide you a flood insurance quote by calling (937)294-2600 or [emailing](#) us a request for more information.

*“This is not a policy. For a complete statement of the coverages and exclusions, please see the policy contract.”*
