

AUGUST 2023

CONGRATULATIONS MOLLY MOORE!

This month we were honored to provide a \$2,000 scholarship to Molly Moore of Highland Heights, Ohio. Molly will be attending the University of Dayton this Fall. Her parents, Tim and Mary Ellen are long time clients of the agency. Thank you to everyone who submitted an entry for the scholarship. We had 13 students apply, and it was a very difficult decision for us to pick one recipient. Supporting our community is one of Robert K. Jones Insurance Agency's core values, and we are thankful to have the ability to provide the scholarship to our community. Keep your eyes out, for Spring 2024 when we offer our next Scholarship opportunity.

CLAIMS CORNER

SERVICE LINE COVERAGE IS AVAILABLE

An insured noticed that their water bill had increased, without additional usage by them. After confirming the increase with the water department, the insured called a plumber. The plumber discovered there was a break in the water line running from the house to the street. With the protection of Service Line Coverage, the access to the pipe and the repair were covered subject to a \$500 deductible. Please contact us to confirm you have this coverage.

WHAT OUR CLIENTS ARE SAYING

I was so pleased with Beth when I talked to her last. I was so nervous and agitated when I called in and Beth was so wonderful to work with during that stressful time.

-Joyce C.

I would like to say that the young man, Kevin, at the front desk is very pleasant to talk to. It was very refreshing getting to talk to someone so polite.

-Audrey S.

Thanks for the follow-up. I appreciated your time. How refreshing to have a conversation with someone about the policy. I would be happy to pass along your business information!

-Toby.
