

JULY 2026

CONGRATULATIONS IAN!

This month we were honored to award a \$2,000 scholarship to Ian McAllister. Ian will be attending Sinclair Community College in the fall. His mom, Whitney McAllister, has been a long-time client of the agency. Thank you to everyone who submitted an entry for the scholarship. Supporting our community is one of Robert K. Jones Insurance Agency's core values, and we are thankful to have the ability to provide this scholarship to our community. Keep your eyes out for Spring 2027, when we offer our next scholarship opportunity.

CLAIMS CORNER

PROTECTION FROM PERSONAL CYBER THREATS

Cybercrime isn't just a business problem—it's becoming a growing risk for homeowners, too.

From phishing scams and online fraud to ransomware attacks and hacked smart home devices, today's connected lifestyle creates new opportunities for cybercriminals. Many of our homeowner policies can help fill this gap by covering losses related to cyberattacks, compromised personal data and connected home technology. Coverage can include online fraud, cyber extortion, malware recovery, data breach response and restoration of internet-connected devices, helping families recover faster from today's digital threats. We are happy to review options available with your personal insurance.

JONES IN THE COMMUNITY

THE PERFECT FIT

Members of our team spent the morning volunteering for Shoes 4 the Shoeless at a Dayton Elementary school. We were able to fit and send several hundred children home with new shoes and a few pairs of socks that day.

FEEDING DAYTON

The other half of our team spent the morning volunteering at The Foodbank of Dayton sorting food into boxes for distribution to other organizations.
